

How Bristol Homeless Health Service has developed data-sharing and interoperability to the point where Clinicians can triangulate data from a dozen health and social care databases

Current data feeds...

- Emis 13793 - Homeless Health Service
- Emis 16895 - Broadmead Medical Centre
- Emis 28670 - One Care Consortium (1 million patients, 81 Practices)

- Connecting Care (19 databases fed into a live synchronised system)

CONNECTING CARE PARTNERSHIP

- NHS Spine. SCR & other services

- Theseus - Substance Misuse

- RIO - Mental Health

- BRI Homeless Support Team
- BRI Discharge team & Intermediate Care

- St Mungo's Opal System
- Bristol Housing Support Register

- St Peter's Hospice
- Bristol Community Health
- Children's services
- GP Lab Links. ICE.

- 1.HHS Emis 13793
- 2.Broadmead Practice Emis 16895
- 3.One Care Emis 28670
- 4.Connecting Care (19 databases fed into a live synchronised system)
- 5.NHS Spine. SCR & other services
- 6.Theseus - Substance Misuse
- 7.RIO - Mental Health
- 8.BRI Homeless Support Team
- 9.BRI Discharge team & Intermediate Care
- 10.St Mungo's Opal System
- 11.Bristol Housing Support Register
- 12.St Peter's Hospice
- 13.Bristol Community Health
- 14.Children's services
- 15.GP Lab Links. ICE.

Wish List

- 1.Shared Care Plans
- 2.Prison Health
- 3.Pharmacies
- 4.Asylum Seeker Health
- 5.Greater use of the Advanced SCR
- 6.Hospital data – real-time synchronised
- 7.More Social Care data

Aspirational

- Datasets defined by clinical role mining a databank of real-time health and social care information. Fully compliant with GDPR.
